6. sweet, sour, salty, bitter

### Concepts discussed at the visit:

1. Review what the five senses are. (# 1-5 above.)
2. Ask how our senses help us to learn about the world?
3. How do animals use their senses to help them to live?
4. Think of specific ways that different animals may use their senses differently.
5. Compare animals from different habitats. What about animals that spend most their time in the air? Underground? In trees? Underwater?
